LUXURY VINYL TILES

The game changer

Tarkett

THE GAME CHANGER

OAK TREND Cold Brown 257021003
OAK TREND Grey 257021002

The game changer

The first impression of a space is to a great extent defined by thoughtfully designed interior. Texture and colour of the floor gives basic tone to the space, which is upgraded with the other elements of interior design. LVT floor coverings changed the game rules completely, when it comes to floor design.

Modular solution

This LVT collection opens numerous possibilities of combining designs, various textures, shapes and colours, thanks to its modularity. Areas in which ModularT 7 is installed can exude simplicity and calmness, or they can be cozy, with lots of details and strong personal touch of people spending their time there.

With four carefully and professionaly chosen designs in 22 colours, inspired by natural materials, ModularT 7 provides possibility to create spaces with different styles. This collection is a good solution for spaces with high traffic, such as hotels, coffee shops, stores, offices, or restaurants. Characteristics like simple maintenance, water resistance, durability and impact sound reduction, make ModularT 7 the right choice from both functional, and aesthetic aspect.

Sustainable solution

1. Phthalate free

We selected **phthalate-free** plasticizers approved for food contact containers, which can also be used for toys intended to be placed in the mouth by children.
This way, we offer our clients more comfortable, healthy and people-friendly indoor spaces, keeping high performance and design experience.

2. VOC <100µg/m³

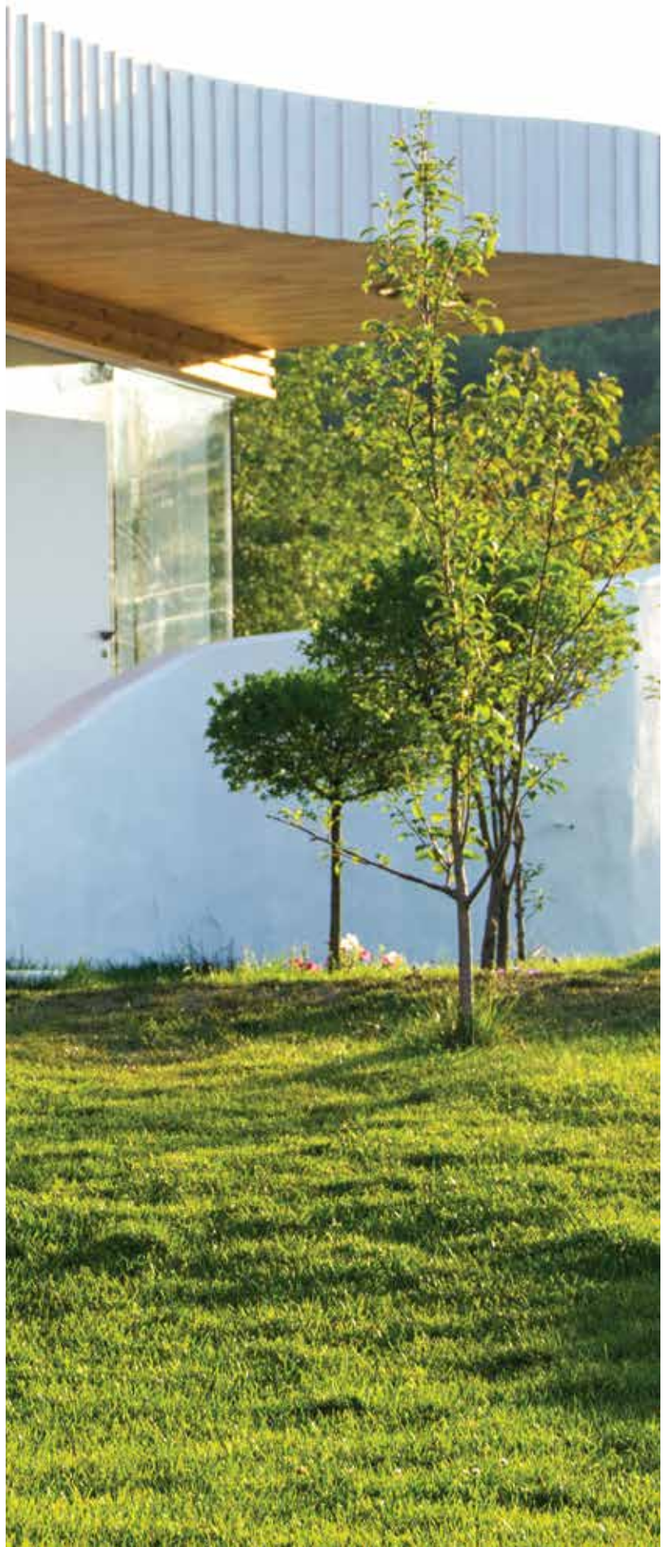

*TVOC AT 28 DAYS

3. 100% recyclable

100% recyclable

10 layer construction for high performances

Durability: Very resistant and durable floor, intended for commercial areas with high frequency.

Multiple **glass fiber** and **glass grid** reinforcement (PATENT PENDING) for great dimensional stability, several times better than most products on market have. Thanks to innovative construction, ModularT is flexible enough and easier for manipulation during installation.

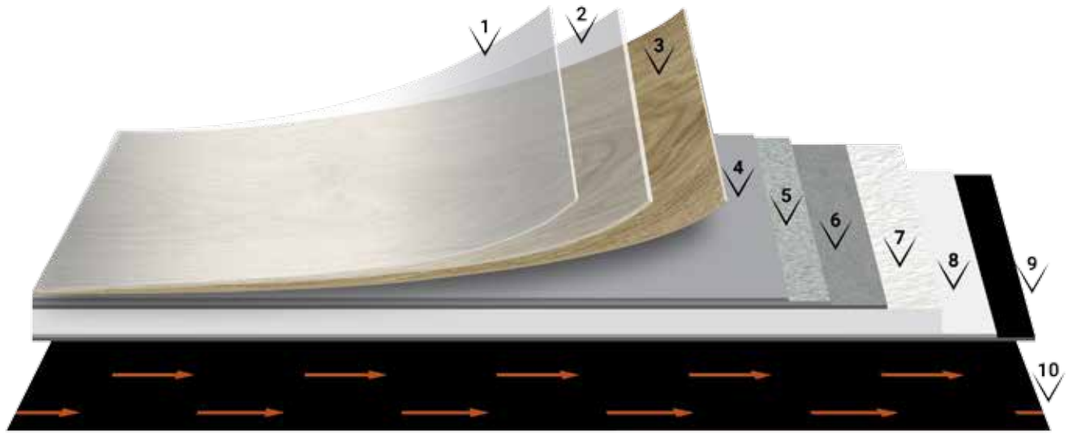

Additional protective layer on floor covering, which keeps dirt away from lower layers of the product, at the same time making cleaning and maintenance of the floor easier.

Water resistant material.

Construction that provides good acoustic insulation, two times better than regular compact LVT.

Bevelled edges: realistic look of natural designs

Design team Tarkett

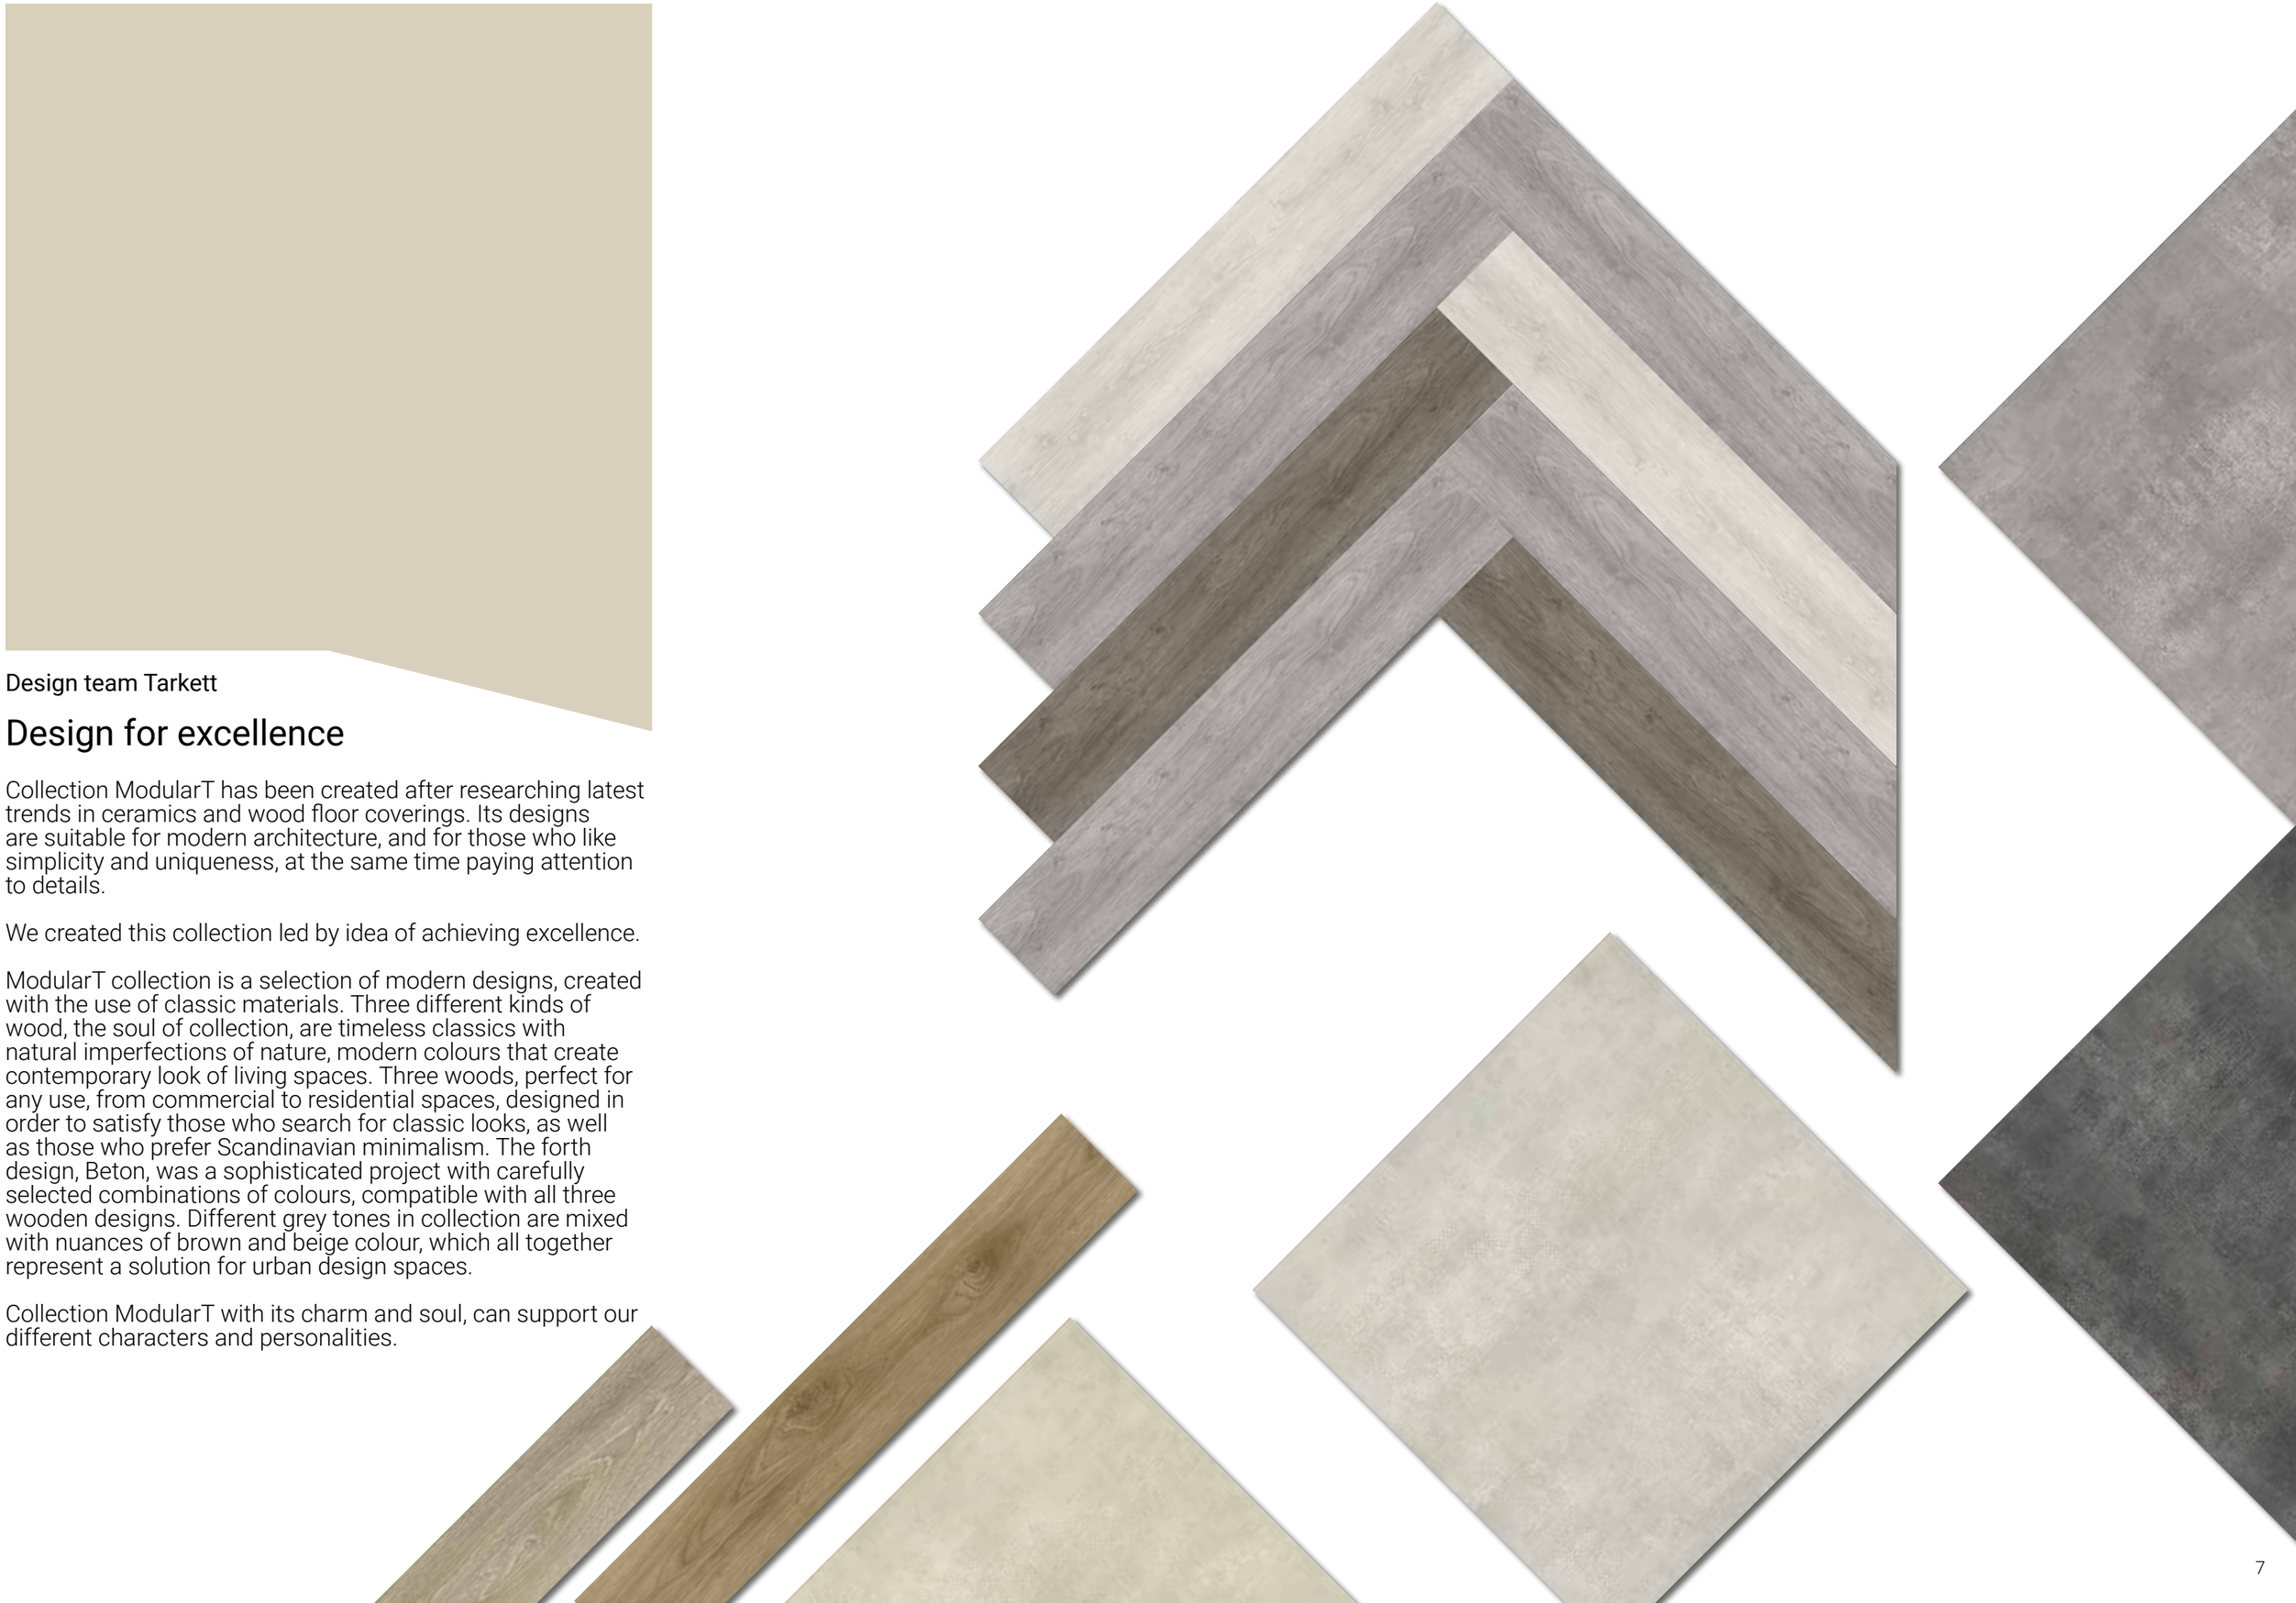

Design for excellence

Collection ModularT has been created after researching latest trends in ceramics and wood floor coverings. Its designs are suitable for modern architecture, and for those who like simplicity and uniqueness, at the same time paying attention to details.

We created this collection led by idea of achieving excellence.

ModularT collection is a selection of modern designs, created with the use of classic materials. Three different kinds of wood, the soul of collection, are timeless classics with natural imperfections of nature, modern colours that create contemporary look of living spaces. Three woods, perfect for any use, from commercial to residential spaces, designed in order to satisfy those who search for classic looks, as well as those who prefer Scandinavian minimalism. The forth design, Beton, was a sophisticated project with carefully selected combinations of colours, compatible with all three wooden designs. Different grey tones in collection are mixed with nuances of brown and beige colour, which all together represent a solution for urban design spaces.

Collection ModularT with its charm and soul, can support our different characters and personalities.

OAK TREND

Authentic, old wood structure, which passed the test of time and became icon of design itself. Remaining trendy through the years, classic wood with enhanced brush effect brings in the spirit of nature. Stories can be told on this floor.

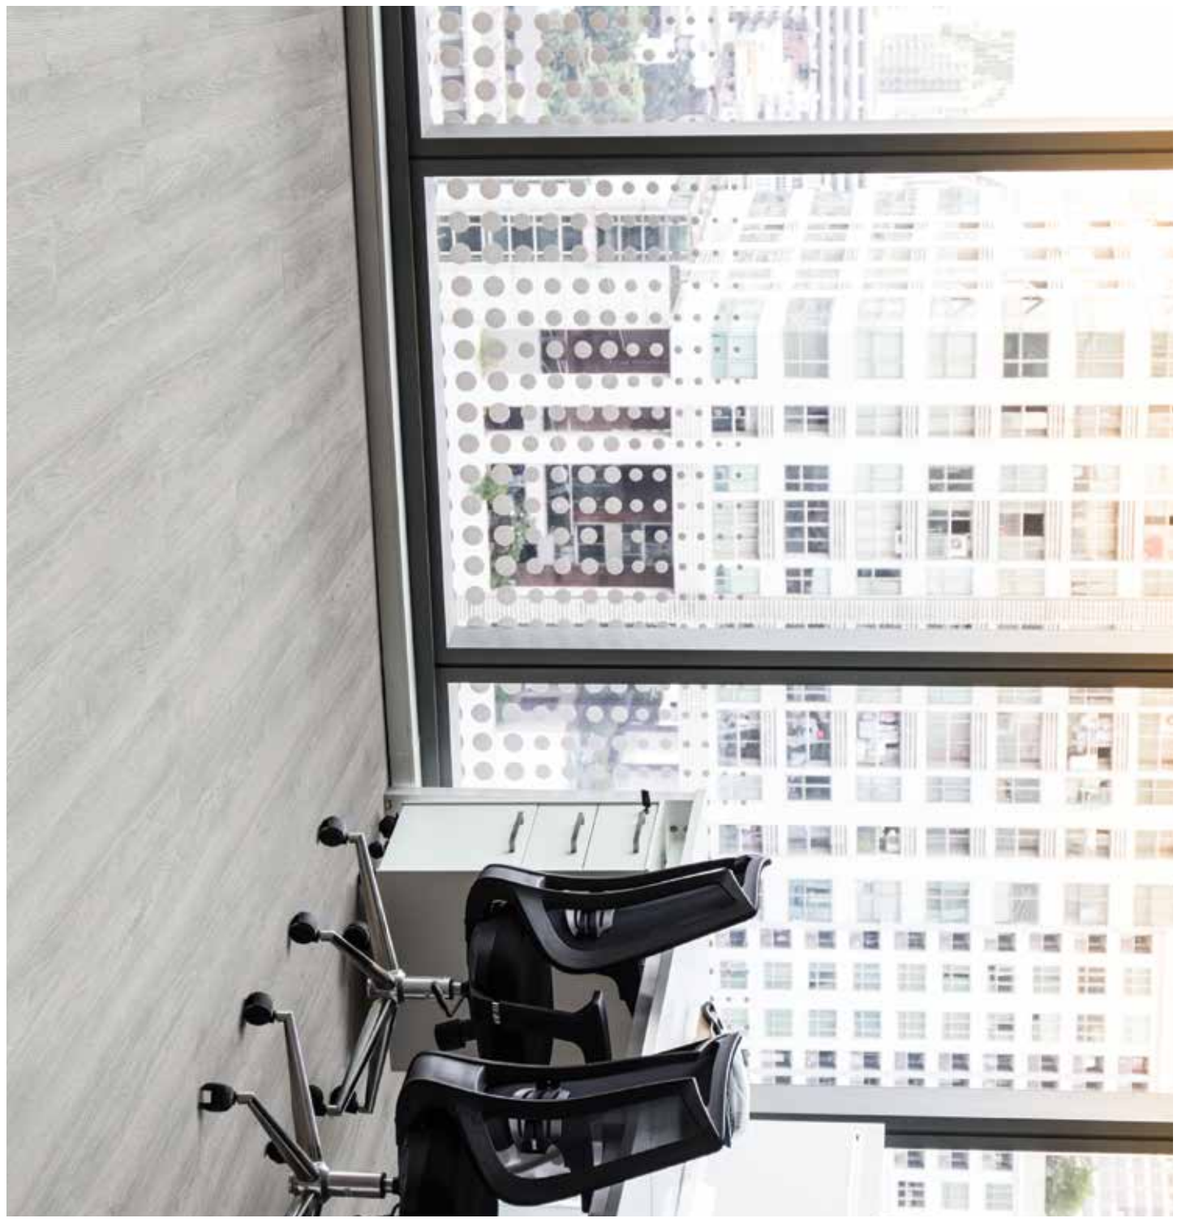

Colour pallette is inspired by Scandinavian style, which, along with its simplicity, expresses warmth, personality and familiarity.

Warm beige nuance
with cold ash effect

OAK TREND Beige 257021000 / 20x120cm

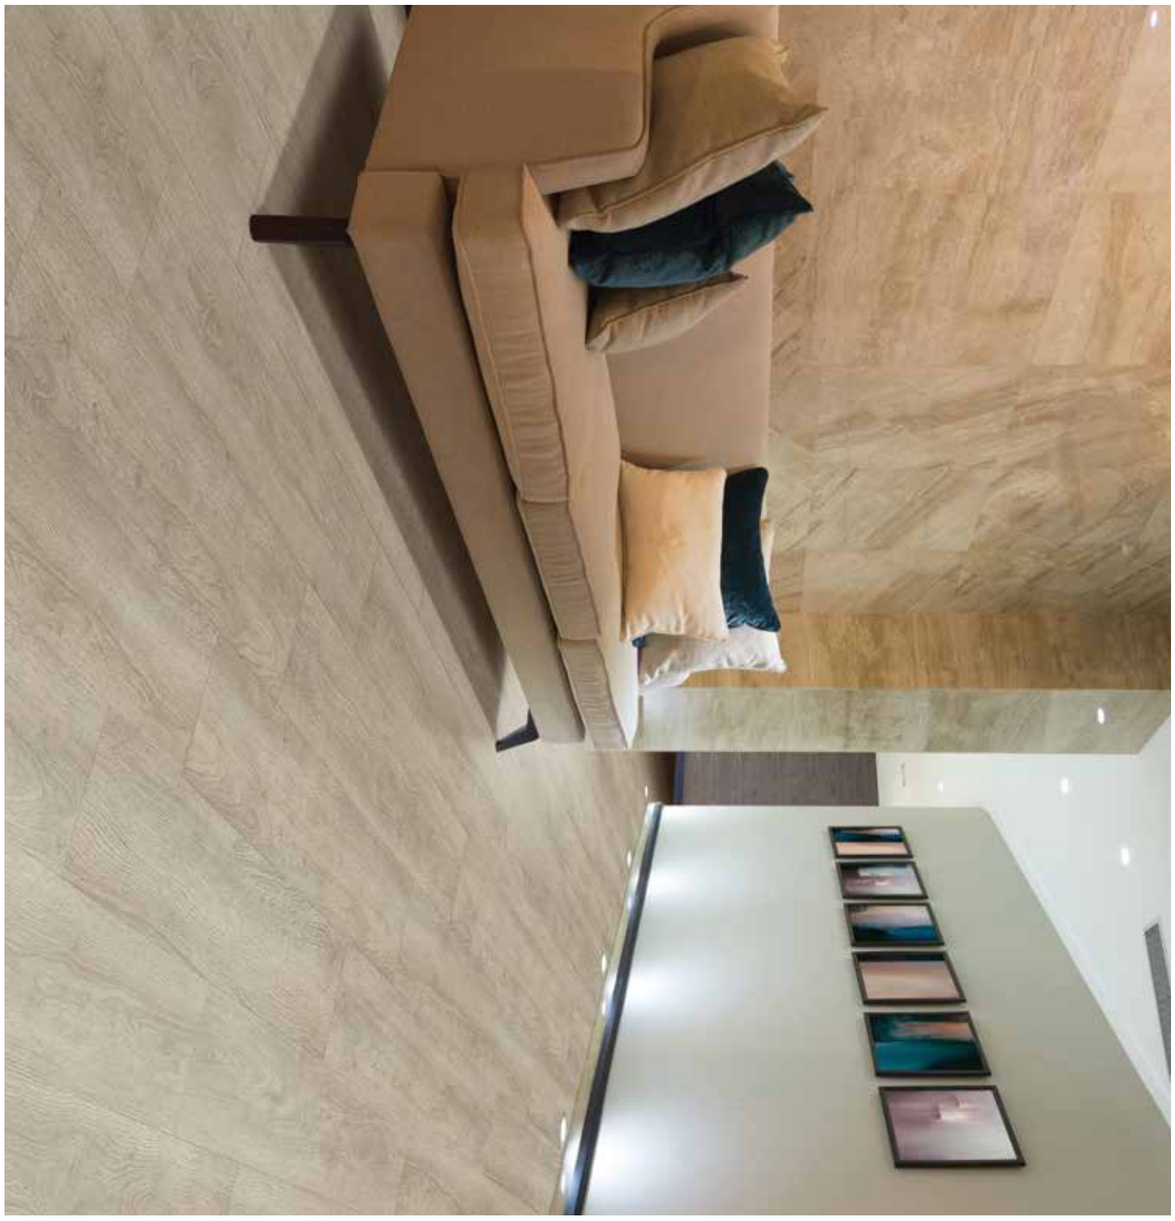

Concrete colour applied
on authentic wood structure

OAK TREND Grey 257021002 / 20x120cm

Light yellow combined
with colder tones

OAK TREND Sand 257021004 / 20x120cm

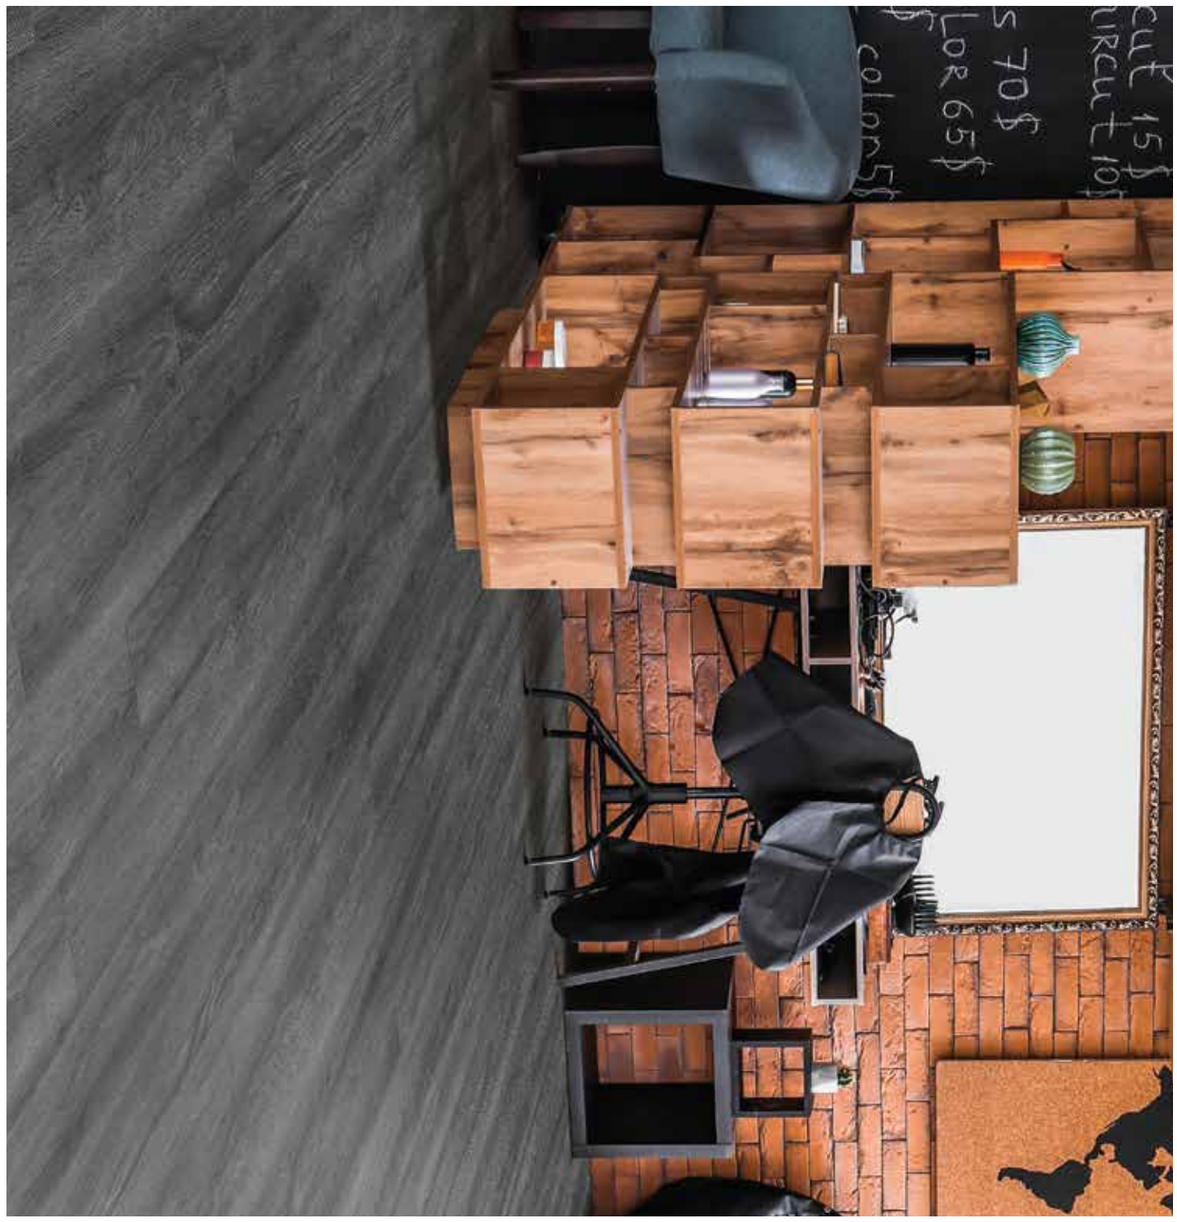

Cold brown nuance

OAK TREND Cold Brown 257021003 / 20x120cm

Graphite black nuance

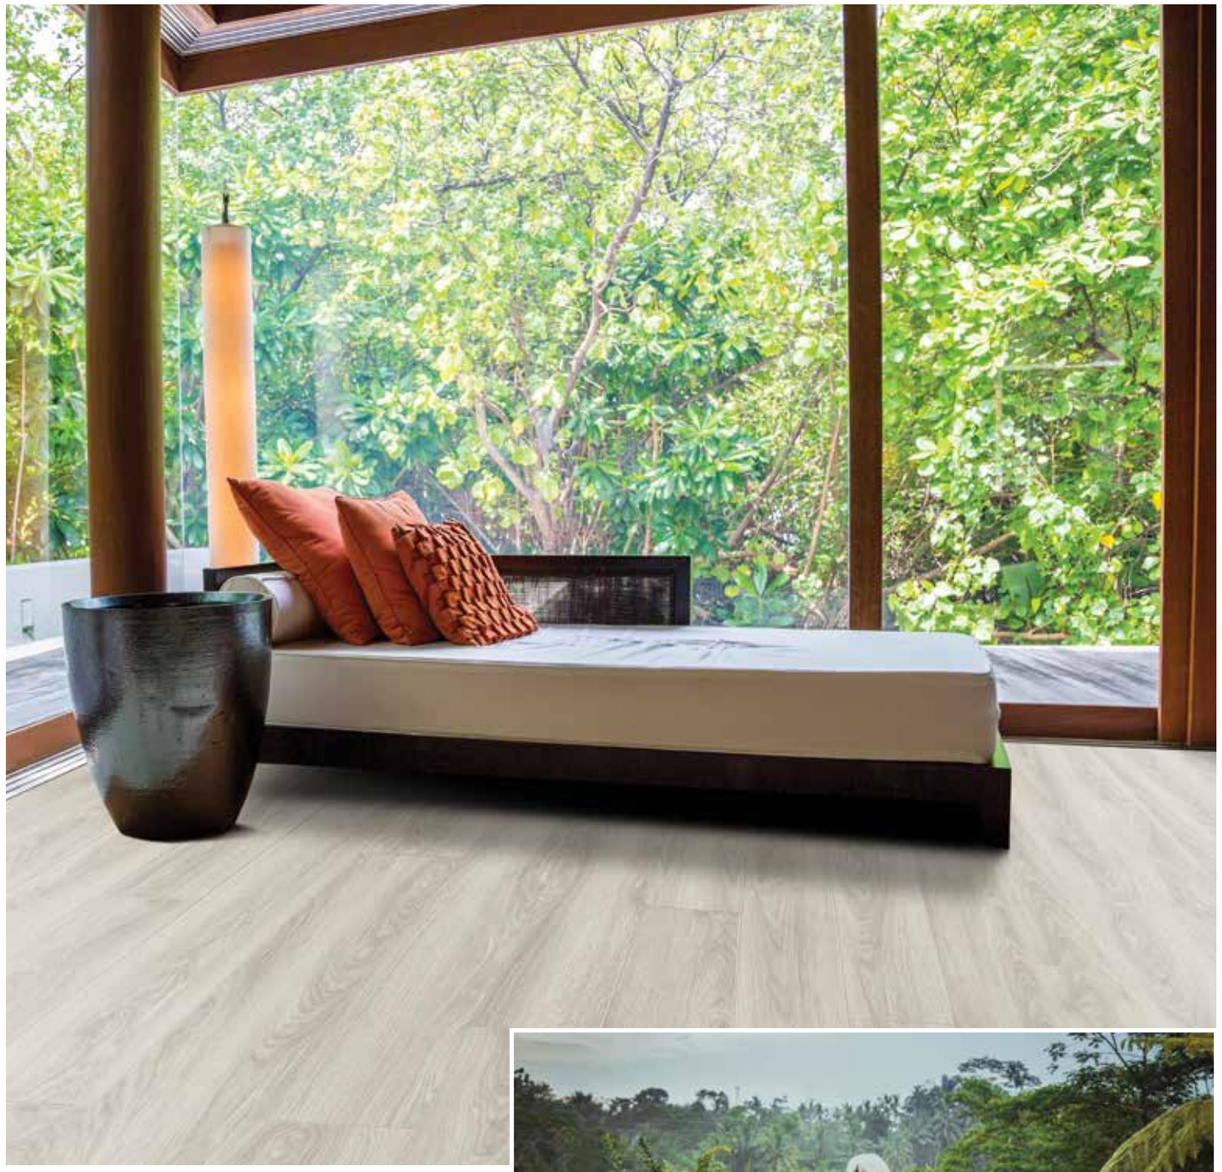

OAK TREND Graphite 257021005 / 20x120cm

OAK ORIGIN

Natural structure of wood exudes freshness and energy, leaving impression of traditional, classic and elegant oak.

Rich and massive structure is in perfect harmony with enhanced shapes and texture. Coloured in calm and flat aspect with darker effects around natural shapes of tree rings, make this design unique. Use of natural colours in this design is very important, since they create atmosphere and impression of natural environment.

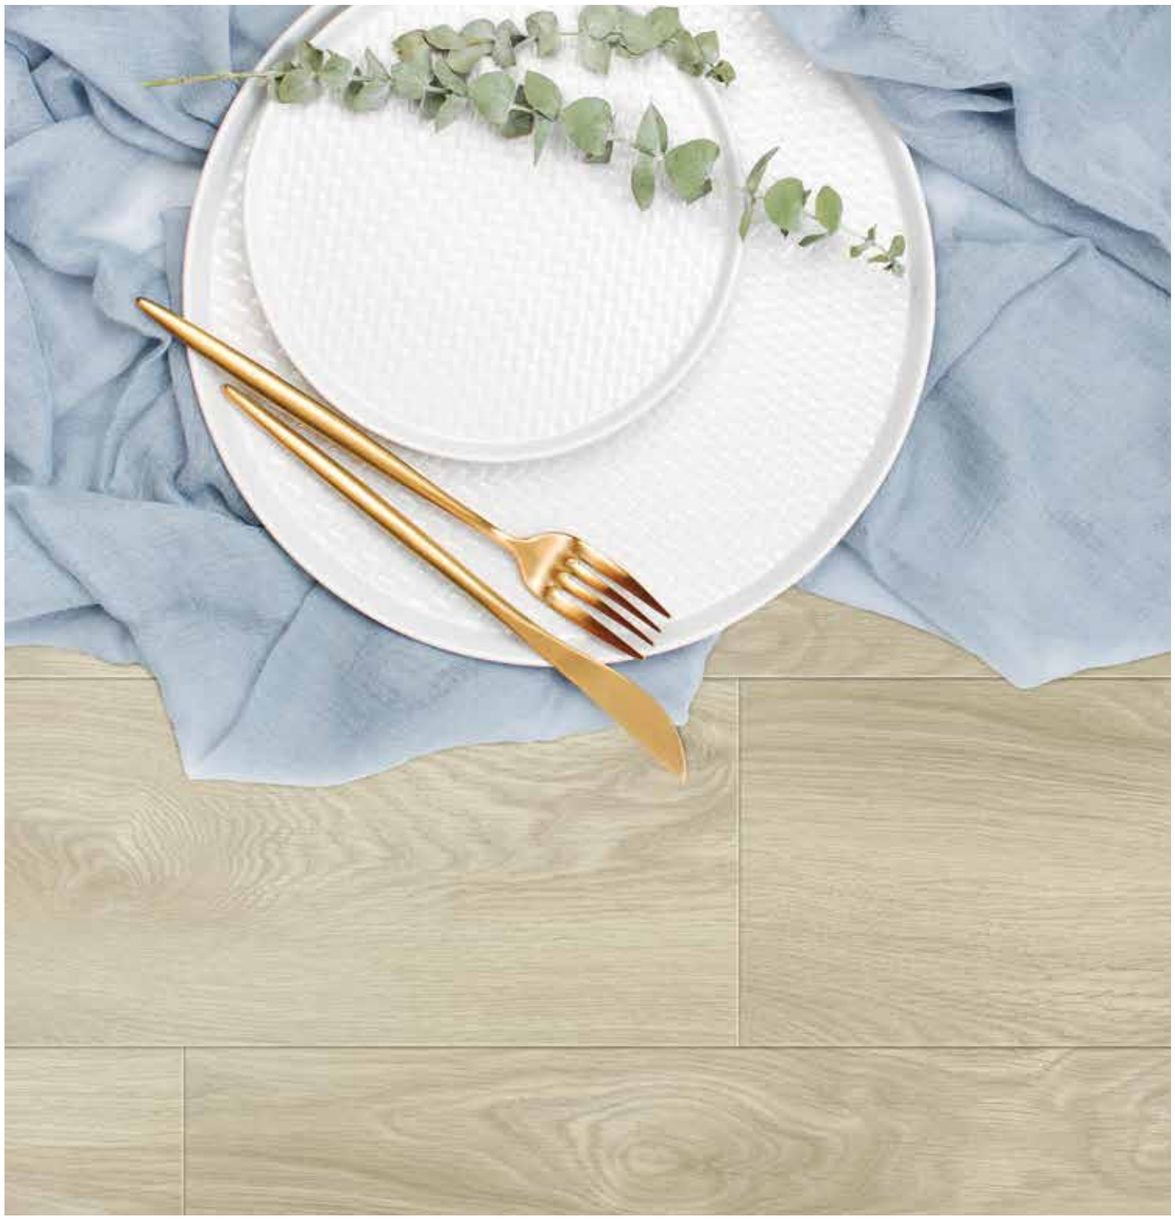

Ice cold beige with grey nuances

OAK ORIGIN Cool Beige 257021006 / 20x120cm

Warm powder beige

OAK ORIGIN Beige 257021007 / 20x120cm

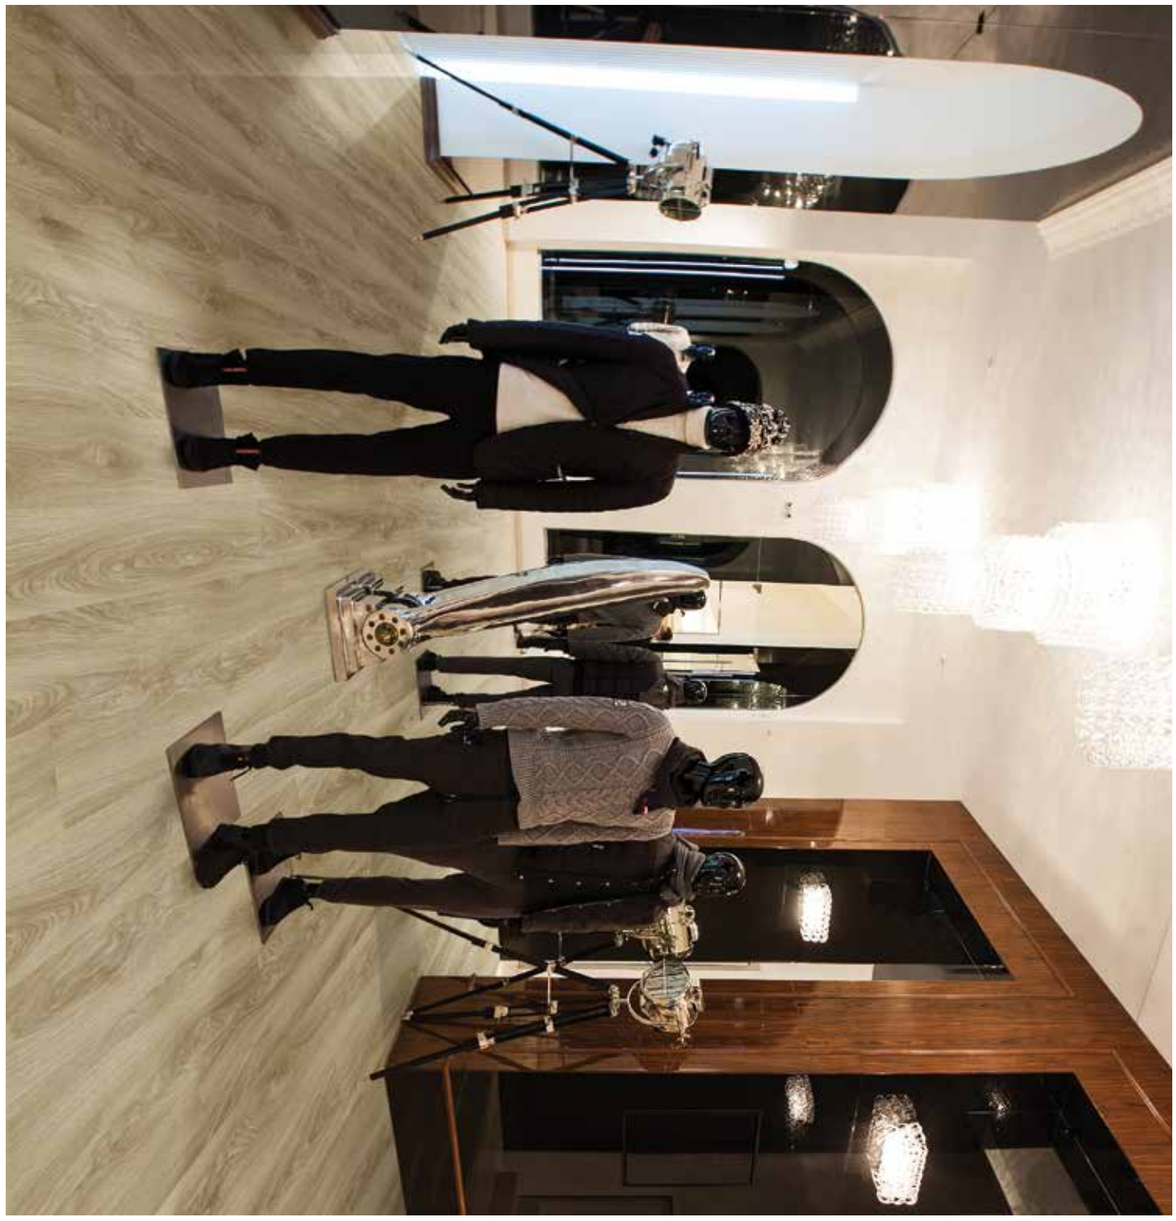

Classic yellow colour
in honey gold tone

OAK ORIGIN Nature 257021009 / 20x120cm

Natural brown tone in rich wood structure

OAK ORIGIN Light Brown 257021008 / 20x120cm

OAK STREET

This design brings together traditional and modern, with various possibilities thanks to multicolour nuances.

With its modern appearance, and cheerful colour nuances inside each board, this design gives impressive looks to any space.

Rich selection of colouristic solutions enables complete transformation of this design in different versions.

Light, laminate-like mono white colour is ideal, since it creates the impression of light and clean space.

OAK STREET White 257021014 / 20x120cm

Dusty light grey nuance

OAK STREET Grey

257021013 / 20x120cm

Medium cool
pistachio brown

OAK STREET Beige Stone 257021010 / 20x120cm

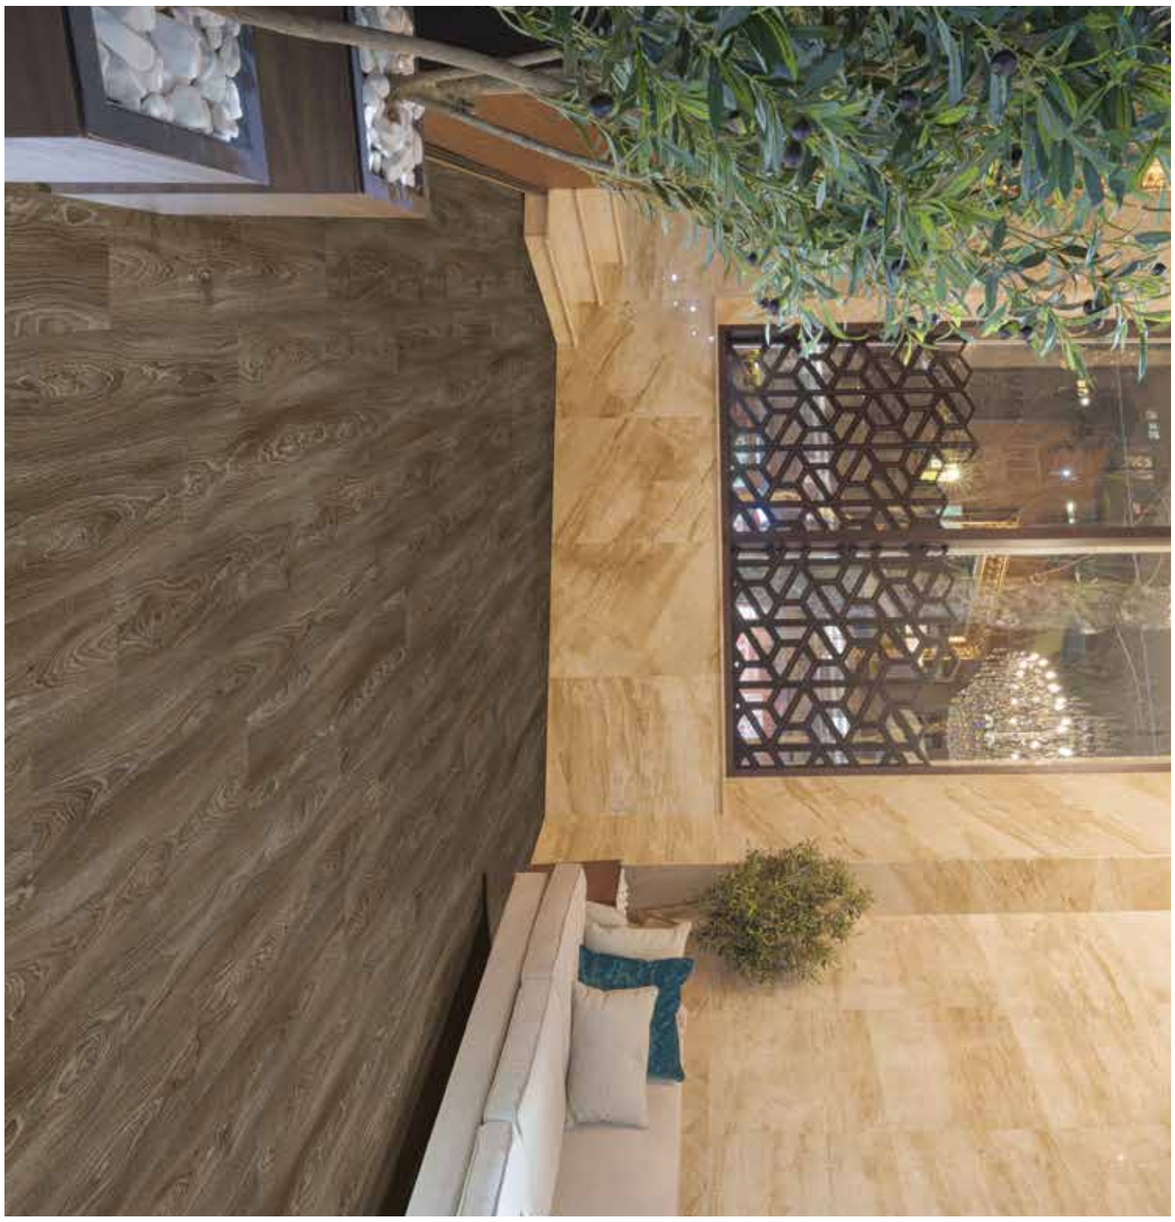

Medium nuance
of brown colour

OAK STREET Cold Brown 257021012 / 20x120cm

Dark chocolate brown

OAK STREET Brown 257021011 / 20x120cm

BETON

Concrete design, leaves strong impression with its simplicity. Without excess accents, pure perfection only. Designed and coloured with style, it is ideal for creating minimalist interior design.

Cool beige nuance,
with cold white effect

BETON Cold Beige 257022000 / 60x60cm

Warm beige nuance

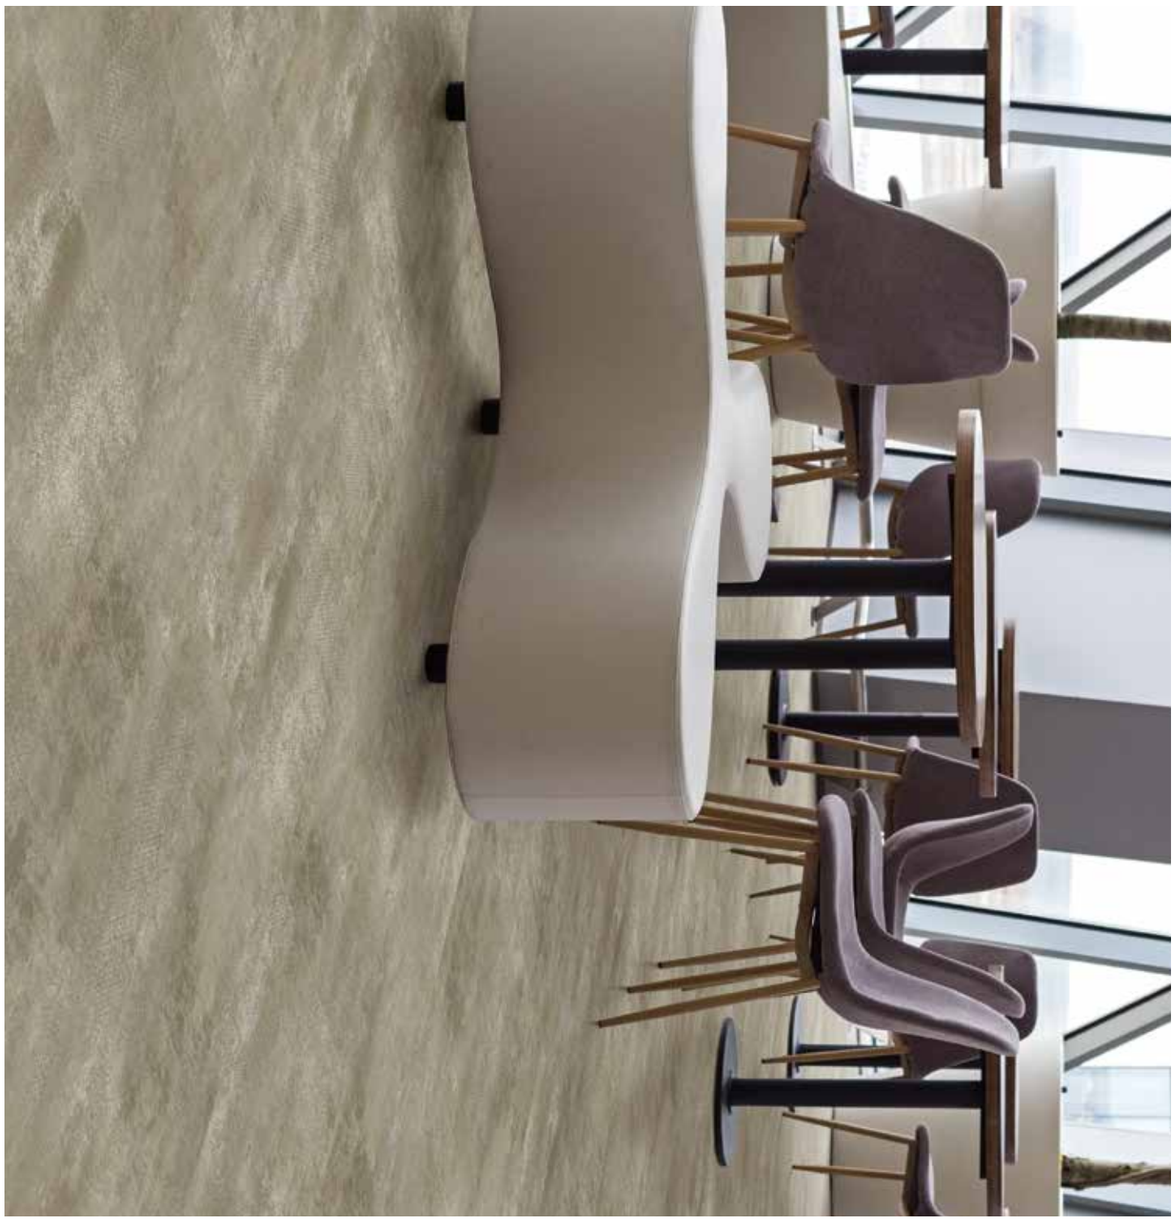

BETON Beige 257022006 / 60x60cm

Light grey concrete colour

BETON Original 257022003 / 60x60cm

Cold calm brown tones

BETON Cold Brown 257022002 / 60x60cm

Light grey with
warm brown effect

BETON Stone Brown 257022004 / 60x60cm

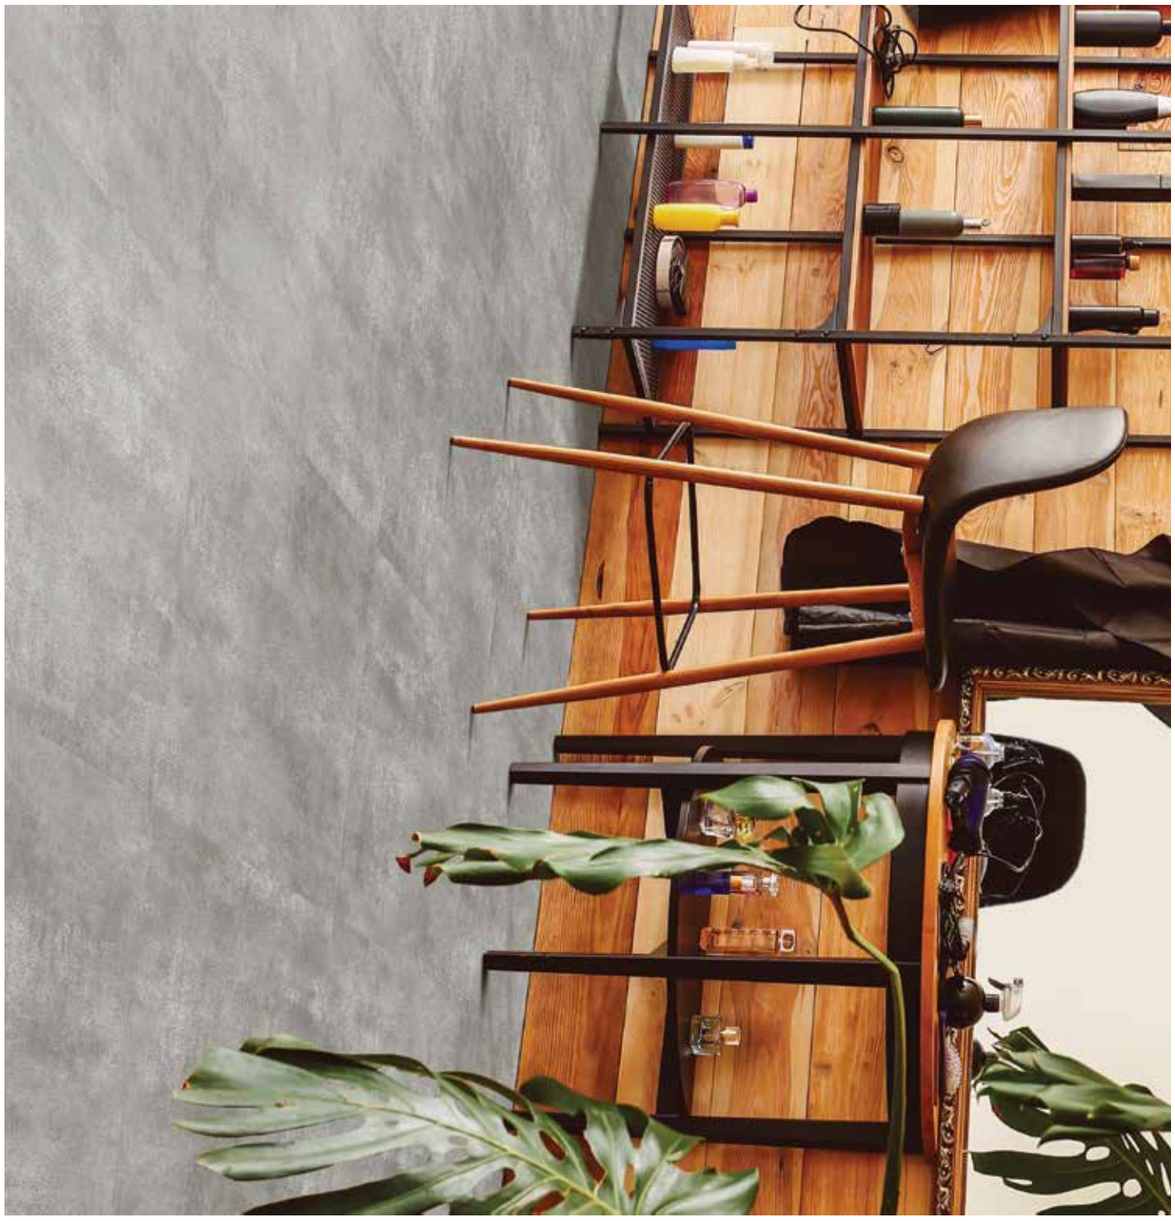

Warm medium brown colour with tones of rust, that can be beautifully combined with neutral tones and white wood

BETON Warm Brown 257022005 / 60x60cm

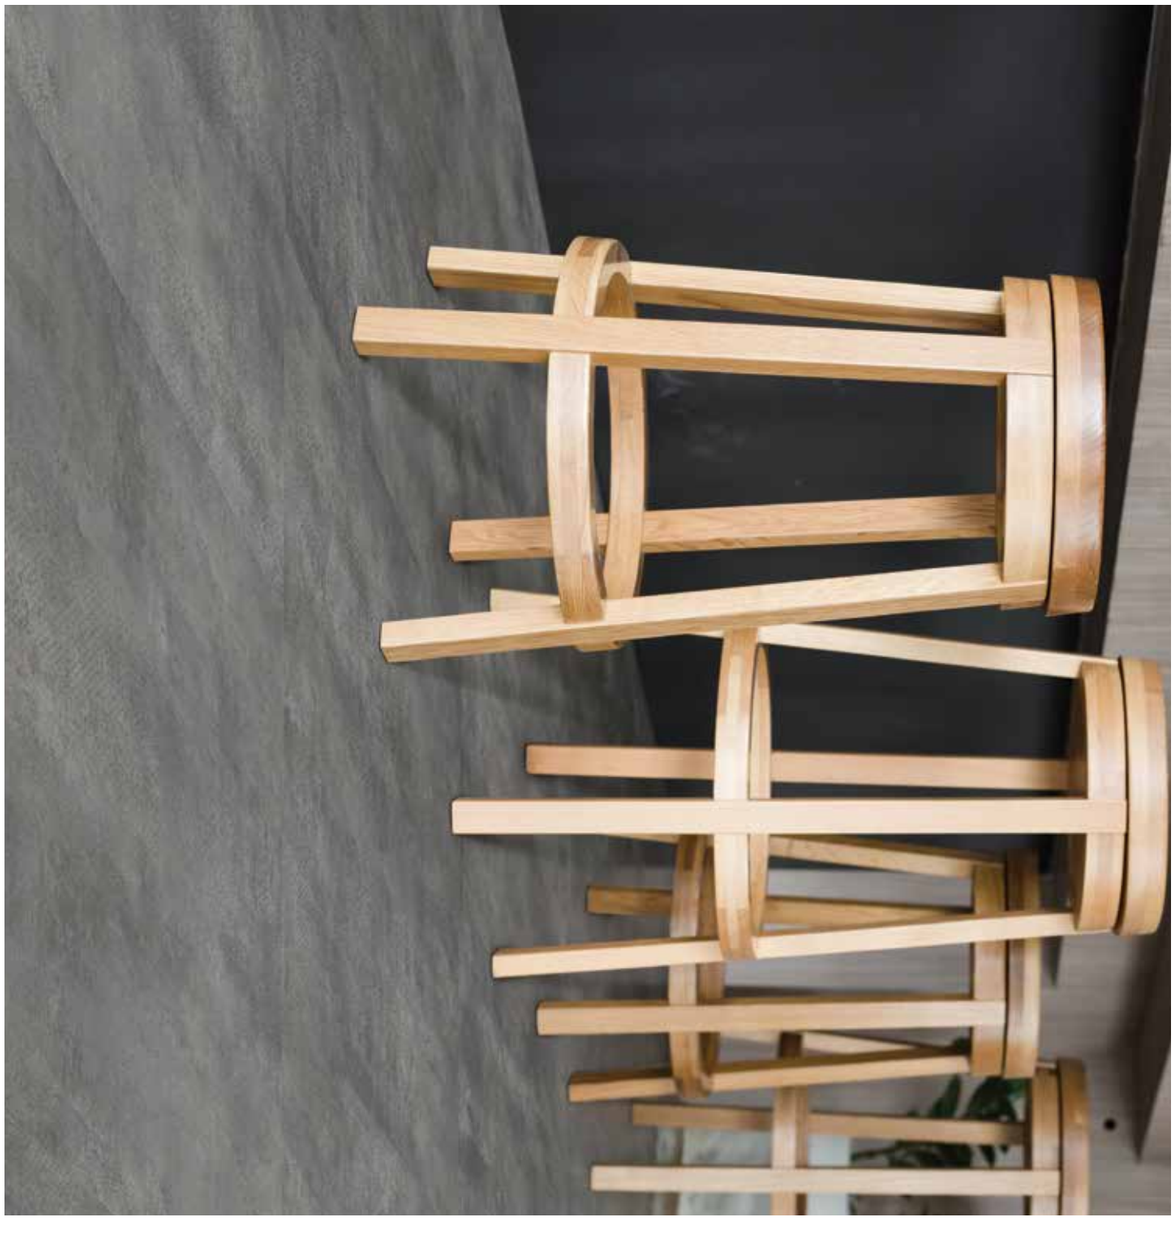

Classic concrete colour

BETON Grey 257022007 / 60x60cm

Graphite grey nuance

BETON Dark Grey 257022008 / 60x60cm

Modular solution

Endless combinations

Installation Instructions

IMPORTANT!

- The subfloor must be level, flat, clean, free from marks, sound, dry, solid, hard, smooth and not exposed to moisture.

- The preparation/dryness of the subfloor and installation procedures should all be in accordance with the current relevant standard within the country of use. Absorbency has to be regulated when needed and subfloor protected from humidity rising.

- Use the same shade number for each continuous surface.

- For wood pattern, avoid installation of LVT with the same design next to each other.

- Let the flooring acclimatise and relax at least 24h at room temperature (minimum 15°C or in accordance with current relevant country standard) before installation.

- Before starting to install, determine the type of laying taking into account the shape of the room and the design to be laid.

- The cut tiles closest to the walls should be more than 10 cm wide; at doorways and corners, not less than half a whole tile.

INSTALLATION:

- Tiles should be laid in a checkerboard pattern and installation should start from the center of the room, taking into consideration the wet bonding method when necessary.

- Stagger each row of planks to ensure that the end joints do not coincide with the previous row installed.

- Use only adhesives recommended by Tarkett (list available on our website). Always follow the adhesive manufacturer's instructions.

- Apply about 250 g/m² using the recommended trowel (TKB A1 or A2 according adhesive specification) and recommended open time.

- The flooring should be pressed immediately with a cork press and rolled in both directions with a heavy roller after complete installation.

- Wait 48h before allowing any foot traffic and 72h for moving of furniture.

- This information is subject to change due to continuous improvement.
